Lisbon, October 13. N. S. The 29th past our Army on the Frontiers began their march, but a little before they sent a Quarter-Master-General to mark out a Camp near Ciudad Rodrigo, on which the Enemy drew some of their Forces that Way; our Army after gave out they intended for Merida, to destroy the Enemy's Magazine

there, and accordingly took that Road; which oblig'd many of the Garrison of Badajox to go to the Succour of that Place; then our Army alter'd their March and sat down before Badajox, cutting off the Return of so many of the Garrison as went out. The 3d. Instant they sat down before it, and ever since have been very busy in raising

raising their Batteries and drawing Lines of Circumvallation: The 11th in the Morning they began to fire from a Battery of 30 pieces of Cannon and another of 16; they have also 9 great and 7 small Mortars, besides 80 Cohornes Mortars for casting Hand-Granadoes; which 'tis hop'd will forward the Undertaking briskly and that we shall soon hear of a Breach being made. All the Inhabitants of the Place, and the Garrison, by the greatest Calculation, consist but of 2000 Men: The Place where our Army attacks is the weaker side, and so unprovided for Defence that they make very little fire, because their Guns are so high mounted that they have been oblig'd to lower their Walls to bring their Guns to bear. The Enemy have done our People but little Damage in their Approaches; and the Weather has been so very good, and is so promising to continue, that its hop'd the Place will speedily be reduc'd: There is in the Place 150 Pieces of brass Cannon; the Enemy's Army consists of 6000 Men and lyes three Leagues and a half from ours, at a Place call'd Saladore: We have no News from Barcelona since the 20th. ult. N. S. P. S. This Evening is come an Express from the Camp before Badajoz with good News; particulars are not yet publish'd; 'tis rumour'd to be the Capitulation or Surrender of the Place.
